Installing **REMOTEi**

For Windows Users

1. Download

- Visit http://uexams.com/download_remotei/ and click the "Windows Download" button.

Download REMOTEi

WINDOWS DOWNLOAD   MAC DOWNLOAD
- If your browser prompts you at the bottom of your screen, choose "Keep" by selecting the arrow to open the menu if needed.

⚠ file.exe can't be downloaded securely.   Keep   ⌃
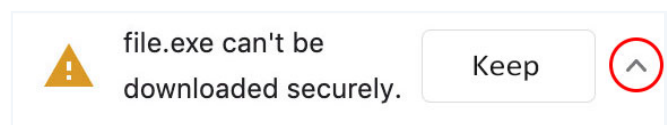

2. Install

- Navigate to your Downloads folder and double-click the "REMOTEi Setup" file.

- If you receive a pop-up from Microsoft Defender, click the "More Info" link to reveal the "Run anyway" button. Click "Run anyway."
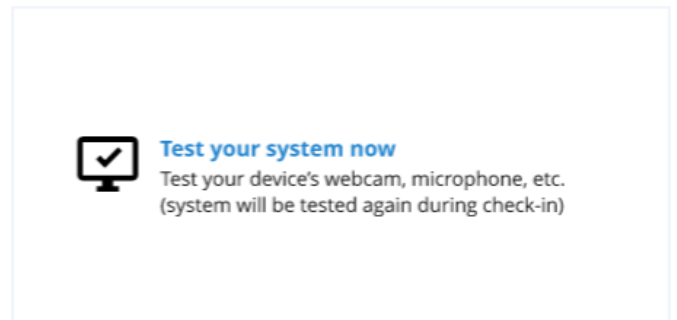

3. Pre-Test Your System

- Open the REMOTEi Application and click "Yes" if you get a pop-up asking permission to make changes and "Allow access" to communicate on private networks.
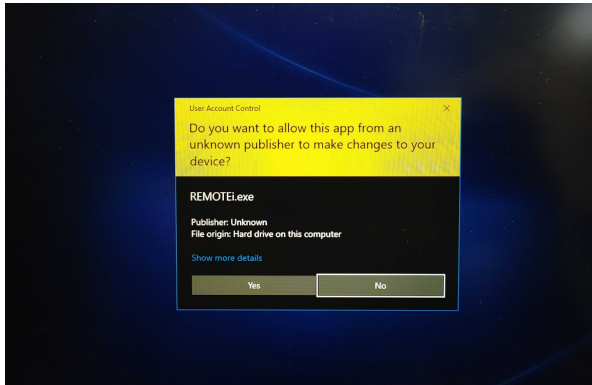

- Log into REMOTEi using your First Name, Last Name, and the unique ID that you received from your testing authority.

- Click "Test your system now" to run a preliminary check of your webcam and other devices

- You are all set to take your exam.
